

Serial No. 10/650,212 ..... Page 7

**REMARKS**

Claims 1 - 27, 30, 31 and 37 - 44 are presently pending. Before action on Applicant's Amendment B filed on about 14 September 2007, a telephone interview, initiated by Applicant's attorney, was held between Applicant's attorney and Examiner Diep, on 09 November 2007. On 19 November 2007, Examiner Diep faxed an Interview Summary (PTOL-413) to Applicant's attorney that correctly stated the agreement reached during the Interview.

It was agreed that Claim 30 appeared to be allowable because of the last limitation of "a controller for directing said scan mirror to adjust a position of said interference pattern on said medium in response to motion of said platform relative to said target." It was also agreed that Applicant's attorney would add this kind of limitation to independent Claims 1, 10 and 31, and that Claims 37-42 would be canceled to expedite prosecution.

By this Amendment, Applicant has amended Claims 1, 10 and 31 for review and approval by Examiner. Editorial amendments have also been made to Claims 2, 3, 10, 12, 13, 14, 15, 20, 21, 24, 25, 26, 43 and 44. Claims 37 - 42 have been canceled solely to expedite prosecution. Therefore, Claims 1 - 27, 30, 31, 43 and 44 are presented.

Applicant respectfully requests consideration of the amendments, allowance and passage to issue of the subject Application.

Respectfully submitted,  
Robert W. Byren
